Microbiological examinations

Substance	Unit	Result Declaration	Substance	Method
Escherichia coli	cfu/g	<1 (LOD)	OM	DIN ISO 16649-2 : 2020-12
Salmonella spp	in 25g	not detected	OM	ISO 6579-1 : 2017-02
Listeria monocytogenes	in 25g	not detected	OM	RAPID L.mono® (detection); NordVal Certificate No.: NordVal 022: 2024-05 (validated in reference to EN ISO 11290-1 : 2017)

Explanation: The symbol "<" or n.q. in the result column means, the parameter concerned is not quantifiable at the limit of quantification shown opposite.

The sign "<"..."(LOD)" or n.d. in column result means, the parameter concerned cannot be detected within the limit of detection.

Explanation: OM = on original matter; DM = on dry matter base

Remark to Escherichia coli:

According to the National Footnote, these are presumptively determined β-glucuronidase-positive Escherichia coli.

Remark to Salmonella spp.:

In the testing of Salmonella spp. according to ISO 6579-1 Salmonella Typhi and Salmonella Paratyphi are not included. These bacteria/germs are hardly found in food. If on the side of the customer there is a justified case of suspicion these two subspecies can be analysed by a PCR test, which needs to be ordered separately by the customer. In case of positive Salmonella results a confirmation of Salmonella spp. was conducted by MALDI-TOF.

Start of testing: 21.05.2025

End of testing: 24.05.2025

The results are related only to the samples tested. In cases where the laboratory has not been responsible for sampling, the reported results apply to the samples as received. The laboratory is not responsible for the information provided by the customer. The customer information, if any, presented in this test report is not subject to the accreditation of the laboratory and may affect the validity of the test results. Duplication of this document or of parts of it requires the authorization from laboratory.

In conformity assessment, the economic approach is used as the decision rule (a non-conformity exists if the measurement result is included measurement uncertainty above the specification or standard), as long as nothing else has been determined by corresponding legal or normative bases.

The activities reported in this document are accredited according to DIN EN ISO/IEC 17025:2018. Only not accredited activities are identified by the symbol "(*)".
